PROFESSIONAL SUMMARY

Results-driven Django Backend Developer with over 2 years of hands-on experience building secure, scalable, and high-performance web applications and RESTful APIs. Proficient in Python, Django, Django REST Framework with strong knowledge of authentication systems, database design, and clean code practices. Passionate about solving real-world problems through backend engineering.

TECHNICAL SKILLS

- | | |
|-------------------------|-----------------------------|
| ◆ Python | ◆ Authentication (JWT) |
| ◆ JavaScript | ◆ Role-Based Access Control |
| ◆ Django | ◆ Git |
| ◆ Django REST Framework | ◆ GitHub |
| ◆ React vite | ◆ Postman |
| ◆ PostgreSQL | ◆ API Documentation |
| ◆ SQL lite | ◆ Debugging |
| ◆ REST APIs | ◆ Performance Optimization |
| ◆ CRUD operations | |

WORK EXPERIENCE

Backend Django Developer

Personal Projects

Calabar, Nigeria
Sep 2023 – Dec 2025

- Designed and developed RESTful APIs using Django and Django REST Framework for multiple backend systems.
 - Implemented JWT-based authentication, user management, and role-based permissions.
 - Designed and managed PostgreSQL databases, including schema design and query optimization.
 - Built reusable backend components to improve maintainability and scalability.
 - Used Git and GitHub for version control and collaborative development.
 - Tested APIs using Postman and ensured proper error handling and validation.
-

EDUCATION

University of Calabar (In Progress)
Bachelor of Science (B.Sc.) in Computer Science

Cross River State, Nigeria
Expected Graduation: 2026

Christian High School
Senior School Certificate Examination (SSCE)

Cross River State, Nigeria
11-Jul-2022

PROJECTS

Job Board webapp with API

- Technologies: Django, Django REST Framework, PostgreSQL
 - Developed a backend system for job listings, applications, and employer dashboards.
 - Implemented user authentication, job posting management, and application tracking.
 - Designed RESTful endpoints and ensured secure access control.
 - Authentication & User Management System
 - Technologies: Django, DRF, PostgreSQL
 - Built a reusable authentication system with JWT, user roles, and permissions.
 - Integrated secure login, registration, and password management features.
